EXPERIENCE

- 2/18 - present **Elliewood Fellowship** - Mental Health Entrepreneurship Fellow Charlottesville, VA
- Accepted into a highly competitive one-year fellowship program that gives top UVA graduates a viable path to start ventures and contribute to the local entrepreneurship ecosystem.
 - Spearheaded four separate mental health solutions to promote mental wellness and decrease stigma using principles of effectuation. See <https://www.jumpbox.us/>.
 - Set up and performed 70+ user interviews with directors of college counseling clinics, psychologists, therapists, and students to uncover their behavior in caring for mental illnesses.
- 5/18 - 8/18 **HackCville Launch Academy** - UX & Web Development Instructor Charlottesville, VA
- Instructed and mentored 30+ students in a prestigious 12-week summer program that teaches college students hands-on skills that they apply during a 7-week internship. The academy received 800+ applications for 60 spots.
 - Selected by HackCville as UX and Web Development instructor, and promoted to lead instructor.
 - Students walked away with detailed knowledge of UX research, UI design, logo design, rapid prototyping, HTML, CSS, JavaScript, PHP, and custom CMS development, as well as an internship to apply their newfound skills.
 - 97% of students said they would recommend the UX & Web Development program to a friend.
- 1/18 - 10/18 **Storyware** - UI Designer & Web Developer Charlottesville, VA
- Served as one of two front-end developers for the High Line in New York and DFW Child Magazine websites: <https://www.thehighline.org/> and <https://dfwchild.com/>. Also consolidated thousands of data points to pinpoint underlying areas for SEO improvement.
- 5/17 - 8/17 **Goldman Sachs** - Technical Analyst & Project Lead New York, NY
- Selected into a highly competitive summer internship program, with a 3% acceptance rate.
 - Designed and developed a web application for fixed income traders to consolidate global bond-level data and improve trade execution efficiency.
 - Developed in AngularJS, Java, and firm-proprietary languages. Performed customer interviews with 20+ traders and developers to ensure hidden behavioral needs were met.
- 1/17 - 5/17 **Radical Advertising** - Project Lead & Web Developer Charlottesville, VA
- Led client acquisition, design, and development for four different websites, delivering two of the websites two weeks ahead of schedule and increasing SEO scores to 100%.

AWARDS

- 1/17 - 5/17 **UVA Entrepreneurship Cup** - First Prize Charlottesville, VA
- Received first prize out of 37 teams in UVA's Entrepreneurship Cup Concept Stage with Mindbrush, a web app to aid college students' mental health.

ACTIVITIES

- 1/14 - 5/14 **Fine Arts Spoken Word** - Writer/Poet Columbus, OH
- Placed 3rd in national slam poetry/spoken word competition against 93 poets and writers to raise over \$5000 in scholarship money for incoming college freshmen.
